Total 16 years of continuous teaching experience Since graduation (2007) working at the academic career, began with teacher assistant, assistant lecturer (Msc 2013) and finally now a lecturer - Assistant Professor (PhD 2019), where I engaged in existing and new teaching techniques Internet assisted learning; database assisted learning; library assisted learning; gallery technique (peer review and student evaluation technique); jury format (deliberation, discussion & feedback); seminar technique (Group discussion); team research (teamwork); individual research (individual skills); modeling techniques (physical & computer models); participatory technique (studios); role playing technique (student mock presentations); overhead, slide, & PowerPoint use in delivery; multimedia use (CDs, video capture, DVDs); collaborate teaching (encourage students to consult other faculty members).
